

# Introduction and agenda

What's hybrid about hybrid work?

Benefits and impact of a successful hybrid experience

Creating a successful hybrid knowledge experience

Q&A

Chief Marketing Officer

Chris McLaughlin

## What's hybrid about hybrid work?

## Knowledge Sharing for hybrid work experiences

#### **MIXED MODES**

- In-person
- Remote

#### **MIXED ROLES**

- Frontline
- Office

#### **MIXED CHANNELS**

A variety of knowledge assets across myriad apps

## Knowledge Sharing for hybrid work experiences

#### **MIXED MODES**

- In-person
- Remote

#### **MIXED ROLES**

- Frontline
- Office

#### **MIXED CHANNELS**

A variety of knowledge assets across myriad apps

How do we formalize knowledge and present it at scale in this environment? How do we construct a coherent employee experience in this environment?

### Key challenges for hybrid knowledge management

N.B. None of these are really new...they are just exacerbated by hybrid working conditions

Benefits and impact of a successful hybrid employee experience

## The real impact of a successful hybrid employee experience

**ENGAGEMENT** 

5.1x

More likely to engage and retain employees

**ENABLEMENT** 

50%

Reduction in time spent on tasks and activities

**EMPOWERMENT** 

4.3x

More likely to innovate effectively

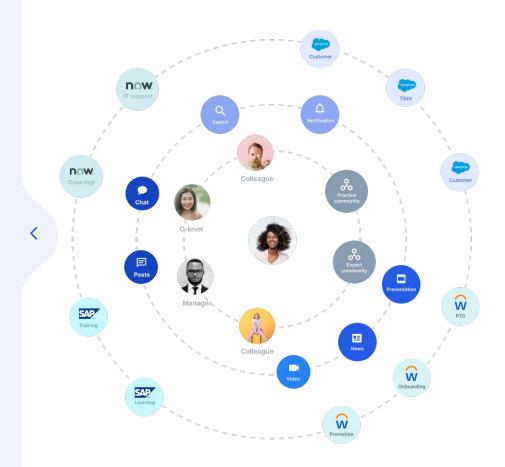

# Creating a Successful Hybrid Employee Experience

### Contextual knowledge delivery to combat information overload

Targeted delivery of information:

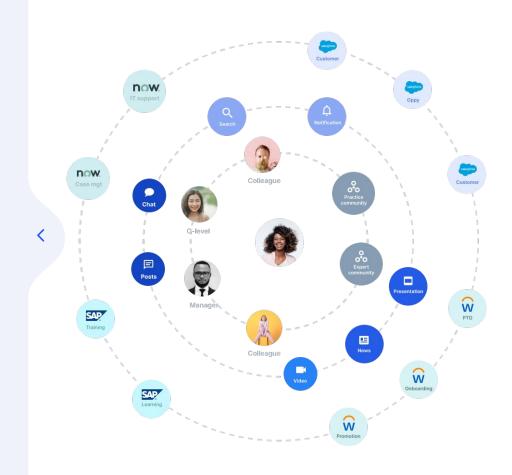

- Curated knowledge
- Suggestions and recommendations (AI/ML)
- Expertise identification
- Subscriptions
- Trending topics
- Intelligent chat bots/digital assistants

## Contextual knowledge delivery to combat information overload

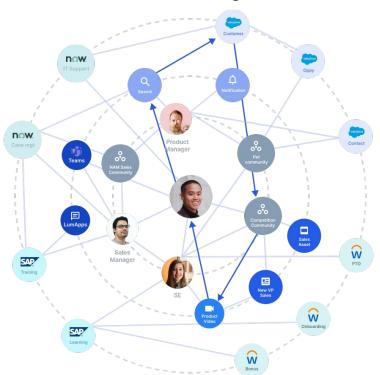

In order to accomplish this, we need context (and data):

- Who do they interact with?
- What tasks and activities are they performing?
- What systems do they use?
- What are their likes and preferences?
- What communities do they follow? Participate in?
- What do they search for? What do they read?
- What media or communications do they consume?
- Intelligent chat bots or digital assistants

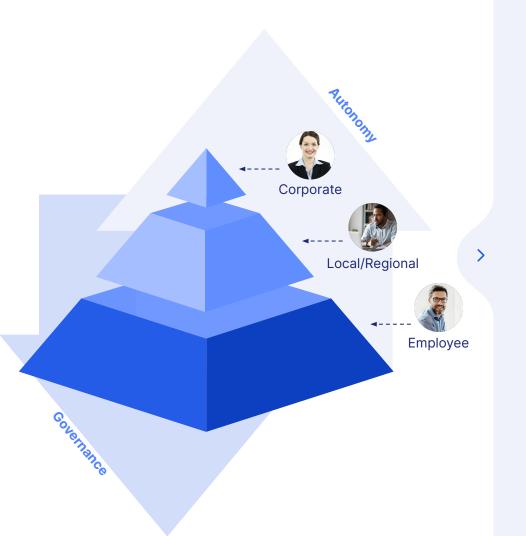

### **Context Is Critical**

#### Mark / Sales Manager in NAM

#### **Louise / Engineering in EMEA**

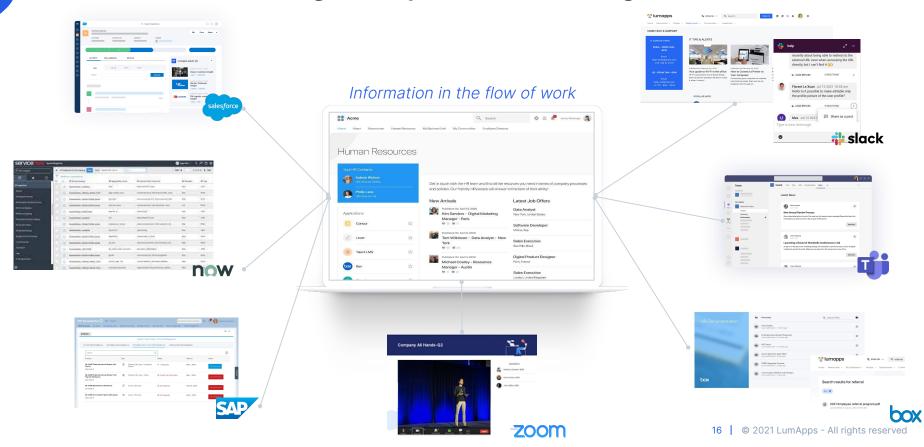

## Support both traditional, top-down knowledge flows as well as employee-to-employee exchanges

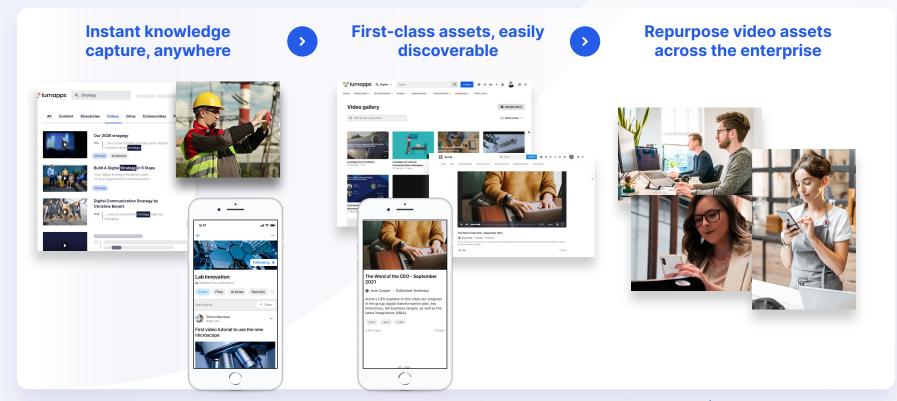

Empower local teams to communicate, work, share knowledge, ideas, and collaborate:

- Curate corporate information
- Empower local managers and team leads to provide context
- Create communities of practice to capture employee-to-employee exchanges
- Right channel + right media

## Consolidate knowledge -or- provide knowledge in context

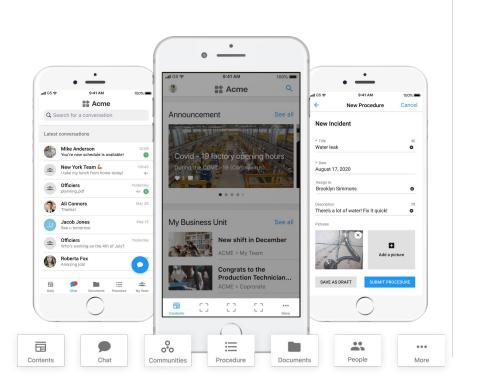

## Leverage multimedia content

#### Creating a Successful Hybrid Employee Experience

## Address the needs of mobile & frontline employees

- > Personalized delivery of information
- Not just an extension of the desktop (consumability)
  - Channel-specific content
  - Channel-specific experience
- > Support specific frontline activities
- Make use of other media (e.g. video)

**Traditional** Modern

**Invest in** modern technology that unifies the employee experience

	<b>Destination</b> Centralized Site or Portal	<b>Distributed</b> Coordinated Sites, Portals, Apps	<b>Unbound</b> "Network of Work," Embedded
- ☐ → Emphasis	Information and insight	Business processes and projects	People and relationships
Information Flow	One-way push communication	Two-way dialogue	Employee-to-employee communication
Knowledge	Authoritative knowledge	Wisdom of the crowds	Inferred knowledge
Application Relationship	Links to external applications	Aggregate views of external applications	Compose/orchestrate services from various applications
Personalization	Broadcast	Mix of broad and narrowcast	Highly personalized
